10 TO 3000 TON CAPACITIES AVAILABLE

Four-Post Guided Platen Presses are typically used with four-post diesets for sheet metal forming operations. Available with coil handling equipment, feeders, knockouts, ejectors, and cushions. Simple relay or PLC control. The Four-Post Guided Platen Press has a multitude of uses including metal forming, deep drawing, trimming, coining, compacting, molding, extruding, and hydro-forming.

SAVAGE HYDRAULIC PRESSES ARE APPLICATION-SPECIFIC AND JOB-ENGINEERED

Tonnage, bed size, stroke, daylight openings, and speeds are all customer-selected to meet your exact specifications

- Construction allows access to all four sides
- Extra-long guides provide generous bearing ratio
- Large diameter, hard-chromed guide rods
- Electro-hydraulic programmable controls
- Maintenance mezzanine
- Dual anti-tie down, anti-repeat ergonomic touch buttons
- Touch screen program storage
- .001" position accuracy
- Removable T-slotted bolsters available
- Commercially available components
- Heavy-duty, stress-relieved, precision-machined, fabricated frames
- Semi-automatic operation or fully-automatic cycling
- Light curtain cycle initiation available
