

Hybrid Straightening Press

1000 TO 2500 TON CAPACITIES AVAILABLE

DOCUMENT 12027

The SAVAGE HS Hybrid Straightening Press is a fixed frame press with powered accessories for straightening heavy shafts, tubes, and round bars. It enhances the straightening process with traveling gantry-style powered accessories on the bed, but goes further still with a powered bar feed. In operation, the workpiece is loaded onto rollers on the extension table. Even bars weighing thousands of pounds can easily be positioned under the ram via the powered rollers.

1800 ton Hybrid Press for Straightening Forged Stainless Steel Bars up to 18" Diameter

SAVAGE Ram Positioning Control

- Provides stopping accuracy to ± 0.001 "
- Takes the guesswork out of straightening
- Accurate and precise programmable straightening maximizes productivity
- Joystick controls both direction and speed

Straightening Accessories

- Powered Lift/Rotation Rollers
- Powered Barfeed Rollers
- All accessories wheel-mounted to glide easily under power across the bed.
- Quick-Change Dovetail V-Nose Ram has replaceable Hard Liners
