Slab Side Gib-Guided Press

100 TO 2400 TON CAPACITIES AVAILABLE

DOCUMENT 12000

This small bed press of heavy slab construction is used for more demanding metalforming, drawing, and extrusion applications where press platen alignment is key.

- Heavy solid steel slab uprights-bolted and keyed
- Ground 45° gibs
- Graphite-impregnated bronze gib liners eliminate lubrication in hot zone
- Programmable press functions displayed on-screen
- High-speed extrusion with accumulator boost
- Single or multiple ejection modes
- Die temperature controls
- Noise Tamer acoustic enclosure surrounds hydraulics for quiet operation

For the hot extrusion of Superalloy steel billets into pre-forms for forging jet engine blades.

300 Ton Slab Side Hot Extrusion Press

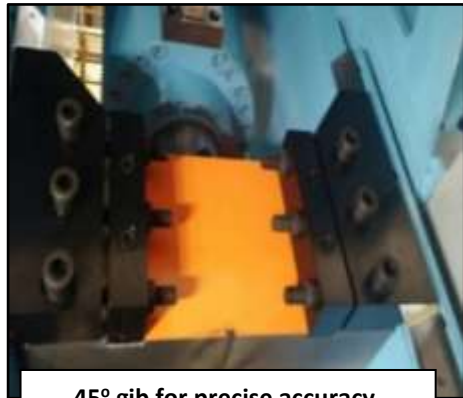

SAVAGE HYDRAULIC PRESSES ARE APPLICATION-SPECIFIC AND JOB-ENGINEERED
Tonnage, bed size, stroke, daylight openings, and speeds are all customer-selected to meet your exact specifications

Graphite-impregnated bronze gib liners run lubrication-free on precision gibs.

Touchscreen computer offers trending, data collection, and programmable setpoints for monitoring and editing.

45° gib for precise accuracy.
